THE DYNAMITERS.

The Great Burlington Plot Exposed.

Prominent Officers of the Engineers' Brotherhood Implicated.

Chairman Hoge's Order to the Strikers

to Destroy Property. portant Arrests Made and Warrants Out for Other Conspirators-How the Detectives Worked Up the Case-General

Manager Stone's Story.

By Telegraph to The Times.
CHICAGO, July 6.—[By the Associated Press.] J. A. Bauereisn, an officer of Aurora (III.) Division of the Brotherhood of Locomotive Engineers, was brought to Chicago this morning under arrest by a deputy United States marshal. He is charged with complicity in the alleged dynamite plot

complicity in the alleged dynamite plot against the Burlington railroad. Bauer-eisn is not the mysterious fourth man who eluded the officers yesterday when three arrests were made In regard to the latest arrest, General Manager Stone of the Burlington said this morning: "Bauereisn is chief engineer of division No. 32 of the Brotherhood of Engineers, which is one of the principal lodges

on the road. For two years he has been on the General Grievance Committee in the United States. He was arrested under the United States statutes, which prohibit carrying dynamite on passenger trains." Beyond this Mr. Stone was not disposed to talk, but it is evident that the officers of the company regard the arrest as a most important one.

Bauereisn was seen by as Associated Press representative this forenoon, and to him he stated that he knew nothing whathim he stated that he knew nothing whatever of the charges preferred against him,
and that the arrest was a total surprise to
the men arrested. He said that he knew
Bowles from the fact that he had been in
his division of the brotherhood, with others.
He had no acquaintance with him.
When asked if he suspected that he was
being watched, he said not more than anybody else. He had known that there were
detectives around in Aurora, dogging
brotherhood men, but he had no reason to
suppose he was particularly singled out. In

When Marshal Marsh was questioned concerning captured letters, he said that excepting the missives thrown out of the car window by Broderiek, the documents were letters of introduction from brother-hood officials straing that the bearen were no brother-nood business. Concerning the letter so hurriedly thrown away by Broderick, neither the Marshal nor District Attorney Ewing would say a syllable, and flatly refused to let it to be seen. Marshal, in reply to laquiries, said that although charges against Bauereisn and others involved now only a fine, the Indictment could, if criminal intent were shown, be greatly altered. In that case the punishment upon any of the accused would be hard labor as a federal convict in the penitentiary. Bauereisn is an oven-faced bread-special prace-special praciscouldered man about

Manager Stone Tells of the Conspir-acy—Strike Leaders Implicated. CHICAGO, July 6.—[By the Associated Press.] General Manager Stone, of the Chicago, Burlington and Quincy Railroad, has furnished the Associated Press with a ong statement, giving the history of the dynamite plot. He says that about the middle of May the company was informed of a plot to destroy its property by dynamite, and that Bowles was about to leave town to put the plan in operation. Bowles did leave Chicago, having taken dynamite caps with him from a room occupied at the Grand Pacific by Chairman Hoge of the General Grievance Committee. On the 29th or May, near Aurora, an engine struck an ex-plosive material, which bore strong evidences of dynamite. The engine was badly damaged. On the remnants of the paper found was the mark of the manufacturer, the same as the cartridges in possession of the men arrested on Thursday. Shortly after this, Bowles was at Nobles-ville, where he was supplied with funds by a draft from J. A. Bauereisn, chairman of the Aurora National Grievance Committee, who was also arrested this morning. Broderick was at this time at Creston, Iowa, where he repeatedly renuested Bauereisn to send Bowles with his goods, as it was a favorable place for opera-tions. Bowles accordingly went to Creston and met Broderick. A few hours after Bowles left Creston, another explosion took Bowles left Creston, another explosion took place in the Creston yards, with all the circumstances and evidences of the previous explosion. During this time Broderick and Bowles had been furnished with letters of introduction to various members of the brotherhood, stating that they were acting on business of importance to the brotherhood, and asking coöperation from the members. Such letters were found in their possession when arrested. Before going to the train at Aurora on Thursday, Broderick went to the hall of the brotherhood and government accomplishes.

After some debate the committee rose and the House then took a recess until 8 p.m.

Officers who went to Aurora today returned tonight, bringing with them Aleck Smith, a striking freman, who is said to have handled some of the dynamite cartridges.

FIFTIETH CONGRESS.

Washington (D. C.), July 6.—[By the Associated Press.] House.—In the House, Mr. Kilgore of Texas presented a conference report on a bill to ratify the act creating the county of San Juan, New Mexico.

Agreed to.

The regular order was then demanded, being an aye and no vote on the Land-grant Forfeiture Bill, which was passed—yeas,

177; nays, 8.

The House then went into Committee of the Whole on the Tariff Bill, the pending paragraph being that relating to iron or steel railway fish-plates or splice-bars.

Mr. Buchanan's motion to strike out the

paragraph was rejected. The reading of the bill then progressed rapidly, motions made on the Republican side to strike out many of the paragraphs being rejected generally without division and with little

debate. Mr. Farquhar's amendment increasing and scaling duties in proportion to the size

files prevailed by a vote of 64 to 61.

Mr. Mills, however, demanded tellers, and the amendment was rejected. On motion of Mr. Vance of Connecticut, with the assent of Mr. Mills, the paragraph

imposing a duty of 35 per cent, ad valorem on woodscrews was stricken out, thus restoring the present rate of duty.

Mr. Duboia of Idaho opposed the reduction of the duty on lead ore, quoting from a leading Democratic paper of the Territory protesting against the reduction. tory protesting against the reduction, and declaring that the Democratic party of Idaho was antagonistic to it. It would have an injurious effect upon silver mining, as in low-grade mines much reliance was placed upon the lead which was mined in the process of silver mining. He offered an amendment restoring the existing duty, and providing that combinations of lead ore with gold or silver ore shall not be ex-

empted from the duty on lead ore. Mr. Perkins of Kansas sustained the amendment, but it was lost by a tie vote-

Mr. Stone of Missouri offered an amendment, which, leaving the duty on lead ore as fixed by the bill, provides that a combination of lead with stiver in ores shalt not e xempt the lead therein from duty. He contends that it was unfair that a cargo of ores, of which 5t per cent. was lead and 49 per cent. was sliver, should be compelled to pay duty, while, when the proportions were reversed, it could be free.

Mr. Reed of Maine referred to the recent speech made by Mr. Mills in New York, and said that the gentleman had been receiving in certain Deusociatic papers a good deal of praise for his mani) boldness in resisting his constituents on the subject of wool, and he hoped the gentleman would have the strength and bravery to get up and avow to the House what his position was.

Mr. Mills retorted sharply, attacking the Republican party and its platform.

A discussion of a political nature between Messrs. Mills, Reed and Burrows of Michigan then continued for some time. Finally a vote was ordered and the amendment offered by Mr. Stone was rejected, as also was one submitted by Mr. Wagner of Missouri, restoring the present rate of duty on lead ore.

On motion of Mr. Mills the clause was stricken out, which imposes a duty of 35 per cent, ad valorem on penkajves and razors, thus restoring the present rate.

On motion of Mr. Mills a clause was inserted fixing the rate on new type for printing at 15 per cent, ad valorem.

The sugar and molasses paragraphs and inserting clauses fixing the duties as follows:
Sugars not above No. 16 Dutch standard, syrup, etc., and all molasses testing not above 56°, not otherwise provided for, are to be exempt from duty, in the event that no export duty is levied by the country of exportation; sugars above 160°, 2 cents per gallon; manle surar.

to be exempt from duty, in the event that no export duty is levied by the country of exportation; sugars above No. 16 are to pay a duty of 5-10 of 10 per cent.; molasses above 50°, 2 cents per galion; maple sugar, 2 cents per pound on crystalizable sugar; containing maple syrup or molasses, 4 cents per galion; glucose, 1 cent per pound; sugar candy, not colored, 5 cents per pound; all other confectionery not enumerated, and sugars after being refined, when tinctured, colored or adulterated, and on all chocolate confectionery, 10 cents per pound; with a similar provision against an export duty. It is also provided that, to encourage domestic production, there shall be paid a bounty to United States, as follows: On sugar, 2 cents per pound of crystalizable sugar contained therein; on molasses above 56°, 6 cents per gallon; not above 56°, 4 cents per gallon.

In supporting the amendment, Mr. Cannon alluded to the frauds which have

cents per gallon; not above 56°, 4 cents per gallon.

In supporting the amendment, Mr. Cannon alluded to the frauds which have grown up under the present law, and criticised the bill for perpetuating frauds.

Mr. Funston of Kansas suggested that the farmer who produced the sorghum would not be protected, if sugar under No. 10 was admitted free.

Mr. Cannon replied that the total production of suzar in the United States was about 800,000,000 pounds, nearly all made in Louisiana, and the production was decreasing. In 17 years the value of sugar imported into the United States was \$200,000,000. During these 17 years the duty paid had amounted to over \$700,000,000. Never since the Government was founded had any article received one-half the protection that sugar had received. Was it right to levy this tax on every man, woman and child in the United States to the amount not only of a duty of \$00,000,000 with the total protect tenters and enable them to keep up trusts and to protect Louisiana planters and the man who grew beets and sorghum. He did not think that was right. Let sugar under No. 16 come in free, and then let a policy be pursued which would give the Louisiana planter, the California beet-grower and the Kansas sorghum-grower as much protection as he receives now. This the proposed amend-

A Story Which Proves That Saloons Being Worked for Democratic Votes-Singular Actions of Mr. Kelly of the Board of Educa-

Some time ago THE TIMES made the as sertion that the Democratic managers were preparing to work the present campaign through the medium of the saloons a la Boss Buckley. A little by-play, which developed the other day, goes a long way to confirm the charge, and sheds a fleod of light on Democratic boss methods.

Miss Getchell has been for several years a well-esteemed teacher in the public schools of Los Angeles, and, desiring to continue in the profession, she recently had her application before the Board of Education for reflection. Miss Getchell happens to own a piece of property in the neighbor-Fifth and Regent streets. Miss

hood of Fifth and Regent streets. Miss Getchell is, naturally enough, opposed to saloons. So much by way of premise.

During the pendency of Miss Getchell's application for reflection as teacher her father, who lives at Vernon, received a note from Sid Laccy, would-be Democratic boss, requesting him to call at his earliest convenience on important basiness. Mr. Getchell duly waited upon

THE DEMOCRATIC LUMINARY, who unfolded to him a project for the estab-lishment of a saloon near the corner of Fifth and Regent streets. Would Mr. Getchell kindly sign a written consent for the establishment of said saloon, and would Mr. Getchell's daughter also sign it? Mr. Getchell thought not. He was op-posed to saloons, and he knew well enough that his daughter would not give her consent.

that his daughter would not give her consent.

Mr. Lacey labored long and earnestly to show that the party proposing to open the place of liquid refreshment was the nicest kind of a fellow and would keep the most corderly place in the universe, but all arguments proving futile, he finally said: "Come with me, Mr. Getchell; I want to introduce you to a friend of mine."

Then the Democratic manipulator took Mr. Getchell to the office of Dr. Crawford, the Democratic president of the Board of Education, and introduced him. The subject of the proposed saloon was again canvassed, and Dr. Crawford added the weight of his influence for the application. He did this, however, in a very mild and courteous manner. Lacey had undoubtedly relied upon the Doctor to do some tolerable

but in this he must have counted without his host. The interview terminated without satisfactory results to the saloon wire-

worker.

In due time the Board of Education proceeded to the election of teachers, and Miss Getchell was elected among the rest. It is not of record that Dr. Crawford raised any opposition to her. The simple fact must be acknowledged that Dr. Crawford is too much of a gentleman to enter into a scheme to buildoze a teacher into a consent for the establishment of a "salcon a few doors from her residence under penalty of losing her position. While the manifest intention of Boss Lacey was to intimidate Mr. Getchell by the fear that his daughter would lose her position if the salcon application were not concurred in, it failed for lack of sufficient Democratic discipline.

THE SEQUEL.

THE SEQUEL. Now to the sequel. A few days after the election of teachers a man called at Miss Getchell's residence and presented to her a

Getcheil's residence and presented to her a paper concurring in the establishment of the aforesaid saloon. The lady peremptorily refused to sign it.
"I believe you are a teacher in the public schools," suggested the caller.
"Yes, sir, I am: but I don't see what that has to do with signing a petition for the establishment of a saloon in this block."
"Probably you don't know who I am," responded the worthy. "I am Mr. Kelley of the Board of Education."
It is hardly necessary to add that Mr. Kelley is a Democratic member of that body. Neither is it necessary to enlarge on the bare recital of these

MOST PECULIAR PROCCEDINGS.

MOST PECULIAR PROCEEDINGS. There is no difficulty in substantiating the facts as here given. It is only fair that the facts as here given. It is only fair that the public of Los Angeles should know what is going on in this sub-current of Democratic politics; that the recognized head manager in local affairs interests himself personally in procuring the establishment of a saloon where it is not wanted; that the passive influence of the president of the Board of Education is invoked to the same end, and that, finally, a member of the Board of Education, having enlisted in the saloon interest, waits upon a teacher with an implied menace. When ward politics sinks so low that a member of the Board of Education feels it necessary to use his official position to bolster up a saloon, it is time for right-minded people to wake up and demand a revolution.

Chines Peddler Attempted

to Get Even.
In the Township Court yesterday before
Justice Taney the case of the People vs. Nick Chronis, which had been continued from a previous date, was called for hearcomplaining witness was Ah Due, a Chinese fruit peddler, who sold some strawberries to Chronis, who is the proprietor of a fruit-stand on Spring street, Chronis told the Chinaman that if he would call again in the evening he would pay him, but just at that moment he was too busy. Ah Due returned later in the day and insisted on being paid 8 cents a pound for the berries, which Chronis refused to pay, the price asked being above the usual rate, he himself only receiving 25 cents for three pounds. The heathen Chinee insisted on having 8 cents por pound, and became so noisy that Chronis fired him out of his store to prevent him from further annoying his customers. In the struggle Ah Due received some slight injuries to his body, as well as to his feelings, and he proceeded to put the case in the hands of Horace Bell, Esq., who appeared as his counsely yesterday. Hugh J. Crawford, Esq., appeared on behalf of the defendant, Chronis, and the jury, after being out for a few moments, returned a verdict of not guilty against him. Chronis told the Chinaman that if he

The largest and most enthusiastic meet ing of the Oro Fino Club was held last evening. A large amount of important business was transacted. The invitation of the Boyle Heights club to be present at their meeting tonight was accepted. It was decided to meet at the clubrooms at 7:30 p. m., and accept the escort of the Oro Fino Juniors. An Executive Committee was appointed, consisting of Frank J. Finlayson, John C. Stedman, Charles Gorham, J. Shannon, M. H. Sheppard, H. de la Monte, E. J. Niles, B. Fehnemann, George Porter and E. S. Singleton. A committee of five on uniforms was appointed, of which M. H. Sheppard was made chairman.—Col. Trantum made an excellent speech, while Maj. P. S. Dorney, of the Irish-American Club, made one of the efforts of his life elucidating the Chinese problem, and in a few concise remarks showed the correct position of the Democratic party on this question. The hits of the evening, however, were made by Col. Wells and Maj. Woodruff, two gentlemen who cast their first votes for Tippecanoe Harrison. They graphically depicted the great excitement of those times. All three were elected nonorary members of the club with three rousing cheers. M. H. Shepp-rd also favored the club with a few neat and appropriate remarks. A reception will be given at the rooms next week for which invitations will be issued. Rally Tonight.

The Irish-American, Oro Fino and other clubs will attend a grand Republican rally to be held tonight at Boyle Heights. Among the speakers will be Hon. Thomas H. Bates, late of the Washington Territorial Legislature, and now a member of the

Irish-American Republican Club of this city. Mr. Bates is well known in California. With Kearney, Wellock and Knight he was a leader of the workingmen's party in the laborers' revolt against the Democratic Legislature passed the gag law, and during the same year the Democratic government of San Francisco resolved to squelch the workingmen. The Democratic policemen were ordered to disperse their meetings, to spy upon their conventions, and to club the working people through the streets; at last the disgruntled and desperate Democracy seized and imprisoned the workingmen's leaders. Denis Kearney, Thomas H. Bates, H. L. Knight and William Wellock. Mr. Bates is said to be a good talker, and, as may be expected, he has no love for the Democracy.

The Police Are Drawing Off and the Sports Are Waiting. By one of the recent changes in police circles, Chinatown has been left almost without police supervison, and it is more than probable that, unless the police squad in that detectable portion of the city is reinforced, an attempt will be made to reopen the tan shops. When the com-missioners finally decided to put a stop to gambling, Detective Flickner was specially detailed to look after this particular branch of crime, and was instructed to give his at tention especially to the suppression of tan. Three other officers were detailed to work under Filckner's directions, and so well did

days there was not a game running openly
in all Chinatown, and this state of things
has been maintained up to the present
time. The fact is conceded on all sides that
never before in the history of Los Angeles
has there been so little open gambling as
since the time when the board issued
their uitimatum and gave all hands
to understand that they meant business. In the meantime, however, Police
Clerk Moffatt was taken ill, and has been
confined to his room for several days past.
Officer Beau, who is detailed for duty in
Justice Austin's court, has been put in
Moffatt's place, and Detective Flickner has
been taken from Chinatown and put in the
City Court, leaving but one man on duty in
that portion of the city. It is not charged
that the officer will not do his duty, but it is
imprudent, to say the least, to remove a
man from that place just when everything
was being got in such excellent shape.
The Chinese are a foxy set, and are quick
to take advantage of anything that turns
up, and the utmost vigilance should be used

The organization of the new lodge of Chinese Freemasons in the city has given rise to widespread discontent and ill feeling among the opposing factions in Chinatown. Last night Hoy Chong and Wong Ching, who are members and zealous adherents of who are members and zearous adherents of the criminal Chee Tung society, were brought up in the Township Court before Justice Taney, charged with having threat-ened to kill Ching Wing, who is a local representative of the Six Companies. Unened to kill Ching Wing, who is a local representative of the Six Companies. Unfortunately, the two witnesses who had been present and heard the two highbinders yow eternal vengeance against Ching Wing did not put in an appearance, but at the urgent request of the latter Justice Taney continued the case until the 16th inst., allowing the defendants out on their own recognizance. The two at once stepped out with a chipper-like air to leave the courtroom, but at the door were confronted by a deputy sheriff with a warrant for the arrest of Hoy Chong on the charge of being implicated in another scrape, arising from the attempted organization of the Chinese lodge. Freddy McGregor, who has been acting as defendant's counsel in the case just before the court, protested against his client being arrested in such a fashion by a deputy sheriff after dark. It was illegal, and if persisted in he would hold the Sheriff responsible. Appealing to Justice Taney as to whether he was not right on the point of law as to the illegality of the proceeding, Justice Taney asked to see the warrant, and upon it being handet to him, he indorsed it, saying that while under ordinary circumstances Mr. McGregor was perfectly correct, with his authorization indursed upon it the Sheriff would be quite within his rights in making the arrest at night. Hoy Chung consequently was marched off under arrest, his cheerful countenance being overcast with a look of sullen anger that was quite in keeping with the principles of the society of which he is a member.

The roof was very steep, and the man who was handing up the sheeting told Neeff to fix up a piece of board, so as to hold it. This Neeff did, and as the sheeting was handed up to him he piled it on the roof. The fastening, however, had not been made strong enough to bear the weight put upon it, as it gave way, letting the boards slide down, and catching Neeff and throwing him to the ground. The unfortunate man fell on his head, breaking his neck, crushing his skull and breaking one of his arms, causing instant death. There were only one or two of his fellow-workmen about at the time of the accident, who at once notified the Coroner, and the body was removed to Orr & Sutch's, where an inquest was held yesterday afternoon, the jury returning a verdict in accordance with the above facts.

CHARTER-MAKERS.

REGULAR MEETING OF THE BOARD OF FREEROLDERS.

The Chief of Police to Be Appointed -Members of the Board of Health Disposed Of-Contagious Diseases Discussed-Other Sections

The Board of Freeholders held their regular Friday session yesterday afternoon. In the absence of the Mayor, Maj. Bonebrake was called to the chair. There were present Messrs, Mackay, Estudillo, Mans field, Dunkelberger, Brown, Scott, Day and Moore. The Mayor came in later.

The business was begun with the reading of the rejected charter at section 70, arti-

Article 7, on the educational department was, on motion of Mr. Day, passed over to the next meeting, in order to allow the committee heretofore appointed on the de-partment time to report, and article 8 on the public library was taken up. Sections 84, 85 and 86 were adopted. Section 87 was made to read that three of the directors shall hold office for one year and two for two years, and the directors appointed annually to take the place of retiring directors tors shall hold office for two years. Section 88, on organization of the board

The board didn't really know whether they had voted to make the office elective or appointive, and after some discussion it was decided that he would be appointed, and, therefore, the commission would have power to remove the Chief. The article was then adopted as read.

Article 10. on the Police Courts, was read and adopted intact, and article 11, on the fire department, was read and passed. Article 12, touching the Board of Health, was next presented, and altered by providing that the Council shall appoint the members of the Board of Health, instead of the Mayor. The motion was made by Mr. Mackay, who said that he had no confidence in any one man's special goodness. Just be-Mackay, who said that he had no confidence in any one man's special goodness, just because he occupied a high position, and he had no more confidence in a mayor than he had in a chief of police.

The reading was resumed with the section providing for a health office. It was adopted, and section 190, providing for a health officer, was read. At this time Mr. Day went back to the

and moved that three members of the board should constitute a quorum. Carried. should constitute a quorum. Carried.

The clause providing that the Health Officer should be over 30 years of age was stricken out. The duties of the efficer were allowed to go as in the old charter. Sections 122 and 123, on the quarantine, was read. Maj. Bonebrake wanted to know of Dr. Kurtz if there was not a better word to use than contagious. The Doctor said that this was a very important matter and as the Medical Association were to hold a meeting last night he would like to bring it before them. On motion of Mr. Brown the article was referred to Dr. Kurtz as a committee of one to carry it before the physicians.

The Mayor said that while they were on The Mayor said that while they were on this matter he would say that one-half the votes against the rejected charter were on account of the clause saying that persons sick with contagious diseases could be taken from their homes by force if they would not go otherwise.

Gen. Mansfield said that was true, and such a clause would defeat any charter they might draw up. Mr. Brown echoed Mr. Mansfield and said that no man would allow his

last election had voted against the charter on account of it.

Mr. Scott spoke in the same strain, and said that if the chause should be inserted he would vote against the charter himself.

The Mayor was anxious to get the sense of the meeting on the clause, and made two or three attempts to get a vote on it, so that the members could be put on record. The members didn't want to vote, so Dr. Kurtz took the matter in hand.

Gen. Mansfield said that he could say now what the Medical Association would do with that clause. They would all vote to have it remain. Dr. Kurtz said that no sensible physician would vote for it. The General replied that one physician had already told him that unless the clause was there he would vote against it, and he would privately give the name to the chair if he there he would vote against it, and he would privately give the name to the chair if he wished it. The motion to refer to Dr. Kurtz carried

by a vote of 8 to 5, and the reading was resumed at article 13 on the establishment and change of grade. Maj. Bonebrake and change of grade. Maj. Bonebrake moved to strike out all that portion of sec-tion 140 referring to

Maj. Bonebrake wanted to make another motion to give the people the right to protest for only half a block away from the street. He was informed that the charter already provided for this, and the motion was dropped and the reading resumed.

Col. Dunkelberger objected to the clause saying that the Council could lay sewerage on any street, to be paid for by the citizens. He said it was unfair that the city should go ahead and put in a sewer in front of a man's place and require the man to pay for it whether he got any benefit from it or not. Gen. Mansfield introduced an independent proposition saying that all improvements declared by the city to be a public necessity should be paid for by the city. That, he said, would prevent the city making changes in streets, or anything else that would be detrimental to a man's property and then requiring him to pay for it.

The same gentleman offered a motion that all improvements on a street after it has once been

SEWERED AND GRADED shall be paid for by the city. Mr. Robinson read section 169, which about covered the same ground, and then Dr. Kurtz moved to defer action until section 169 was reached

same ground, and then Dr. Kurtz moved to defer action until section 169 was reached. Carried.

The reading was begun again after this long delay with article 14, on the proceedings to condemn property for streets. The entire article was adopted without a single alteration, and article 15, on the improvement of streets and construction of sewers and bridges, was read down to section 169, when the chauging of grades was brought up again. Mr. Robinson thought the clause did not fully cover the ground in cases where damages should be paid to property owners. One man could not get damages unless his neighbors said so, and there was no recourse in a case where one man owned a whole block, and again one man might have put fine pavements, etc., in front of his property while his neighbors had nothing, and then he would be the only one to be damaged. What right, then, would his neighbors have to say whether or not he should have damages.

Gen. Mansfield said that this was one of the most important things in the charter, and he would like to have more time on it, and he would nove that the body adjourn, and then any persons who wished to express themselves on the subject could come before the body and do so.

As may be seen, the most impor-tant part of the work has been accom-plished. At the next meeting the division of wards and the educational matters will come up for final settlement. After the whole charter has been considered, it will be read over again, and any changes that the people may suggest will be made, and then the rejected charter will come again before the people, altered and amended as they have wished.

THE KING'S DAUGHTERS.

Second Meeting and Regular Organ-ization of the Order-The Officers. The adjourned meeting of the King's Daughters was held yesterday in the TIMES editorial-room, and the organization was fully perfected. The meeting was called to order at 2:45 by the president, and opened with prayer by Mrs. Johnson. The sec-retary's report for the last meeting was read and adopted.

Mrs. Otis read an article relating to the work of the King's Daughters, as published in the New York Sun, which was both in-

work of the King's Daughters, as published in the New York Sun, which was both interesting and instructive, as it outlined the work of the association very clearly.

A circle of the "Shut-in Tens" was suggested, and Mrs. Otis read a note just received from a lady who became interested in the association of the King's Daughters some time since through reading of it and had become a member. She was rejoiced to know that an association had been formed in Los Angeles, although debarred from attendance by ill health. Mrs. Johnson, president of the "Visiting Ten," requested recruits, as there were yet but two in her circle, and more were required for the work, but if no one volunteered, she expressed her determination to go forward with the work of rescue.

Some very respectable colored women had expressed a desire to become King's Daughters, and a motion was made and carried that they be admitted to the work and meetings of the society.

In connection with the work among children, Mrs. Otis read a few passaces from an exceedingly bright and interesting letter just received from a little motherless girl. It was very suggestive of the work we can do among hungry-hearted, motheriess little ones.

By request Mrs. Johnson gave a brief ac-

A SERIOUS QUESTION.

Merchants Complain Justly About Taxation in the City.

There is considerable complaint among aerchants and others doing business in the ity over the city tax on places of business The parties say they do not object to the payment of a tax, and it is only fair that it should be levied for the purpose of rateing a revenue; the kick comes in on the in-equality of the thing. For instance, an establishment doing a business of perhaps \$1000 a month is sometimes taxed more than one doing five times that amount and while it is not claimed that, in any instance while it is not claimed that, in any instance, the tax is exorbtant, still they think it should be equalized, and all should pay in proportion to the business they do, or at least somewhere in that neighborhood. In other words, that the matter of city tax for the privilege of doing business in the city should be carefully revised, and the matter put on a business basis. The merchants claim that while the city has grown and advanced, the Council has lost sight of this important fact, and that a much larger revenue could be collected if the Council would take the time and look up the matter.

ANGRY CITIZENS.

They Kick Against Blasting and the Commissioners Visit the Scene The Police Commissioners, yesterday afternoon, visited the scene of the blasting on Orange street, west of Pearl, about which considerable has been said of late The residents of the neighborhood insis that the blasting is doing great damage to their houses, shaking down the plastering, cracking the chimneys and injuring the cracking the chimneys and injuring the foundations, and sent in a petition to the Police Board, asking that the nuisance be stopped until the contractor filed an indemnity bond. The contractor, on his part, claims that no damage is being done, and that blasts are used which cannot be heard even 100 yards when set off, and appeared before the commissioners, Thursday afternoon, and presented his bond for \$3000, which had been approved by the City Attorney. He was given permission to go ahead until the commissioners could visit the place, when, if everything was found to be satisfactory, his bond would be approved. A GOOD SHOWING.

The Farmers' and Merchants' Bank Shows an Increase in Business. In another column is given the sworn statement of the condition of the Farmers' and Merchants' Bank of Los Angeles. It is in some respects a remarkable statement, considering the dullness of the money market. The fact that the bank has no hand \$2,464,325.32 available cash is flatter ing evidence of the careful and conserva ing evidence of the careful and conserva-tive management of the bank's affairs, at this time, when there is such a cry of hard times. There is no bank in the city which has the confidence of the people more en-tirely than the Farmers' and Merchants'.

THE LUMBER BUSINESS FROM SAN PEDRO GOOD.

anta Fe People Preparing for Big Travel This Fall-An Accident or the California Southern Line-A Road from Guaymas to Topolo

The Southern Pacific's lumber business by way of San Pedro continues heavy, and the prices in the city hold up well, but the Santa Fé men say there will be a cut in the business before long. The work on their new line to San Diego is being pushed along as rapidly as possible. There is but little more remaining to be done now, and the company expect to see the last rail in place by the 15th inst., and trains running regularly by the 1st of August. They ex-pect to cut into the Southern Pacific's business on lumber and coal, because at San Diego these commodities can be loaded from the vessels right on the cars, thus sav-ing lighterage. Then by the new line they can bring freight trains through

IN FIVE HOURS, at a cost that will fall away below the cost of lighterage and transportation from San Pedro. Every cent in the reduction of reight means of course a corresponding reduction in prices. On the old Santa Féroute it was impracticable to haul much lumber on account of the heavy grades and the length of the line. San Diego and the Coronado Beach Hotel are also looking with eagerness to the completion of the road, as both expect a big increase of business.

road, as both expect a big increase of ousiness.

The Santa Fé people are banking heavy on the travel their new vestibule trains from Chicago to Los Angeles will bring them. The trains will leave the depot at Chicago and come through solid to Los Augeles without change or lay over. The pleasure of traveling on vestibule trains cannot be told. It is the nearest approach to a home on the rail yet invented. The trains will cost a lot of money, but the road expects to get it back in the increase of travel.

AN ACCIDENT. There was a slight accident on the Santa Fé line to San Diego Thursday night. A passenger train ran into a freight at Ocean-

When passenger train No. 20 of the

the track, and knocked him several feet
away. Before any one got to him he

The latest railroad scheme is brought to
light by E. S. Babcock, the San Diego capitalist, who says that a syndicate is being
formed in New York to build a road from
Topolobampo, about 30 miles below Guaymas, Mexico,

TO SAN DIEGO.

At the first mentioned place there has been discovered a bed of pure anthracite coal which has been worked on a small scale for several years to supply coal to the stamp mills at the sliver mines there. The principal idea in the building of the road is to develop these coal mines and bring the coal to San Diego to be used in developing the manufacturing interests of that city. Mr. Babcock says the scheme will go.

20 South Main Street,

Local Manufactures—Why They Do Not Flourish. Los Angeles, July 5.—[To the Editor of The Times.] After a residence in your beautiful city for nearly two years, I am sorry to say I will have to bid you good-by. I am a mechanic, and to live must go where I can get work. I simply go to San Francisco to work on a job for Los Angeles. While men were getting rich on selling real estate they did not mind payreal estate they did not mind paying a small percentage more for having iron wrought, books printed, etc., here in Los Angeles. But now, a slight dullness having overtaken the citizens, those parties who are having contract jobs done are taking the bids from parties in every city, town and village in the Union, to see who will do the work a dollar or two cheaper. I would like to know when your city can become a manufacturing place, when your citizens are getting all their work done in other places? It is the number of mechanics and laborers employed in a place that makes it prosperous. The weekly and monthly wages of the employed is what keeps business brisk. Just now Los Angeles misses the money of the mechanics. That is the cause of the scarcity of money; and yet some or the scarcity of money; and yet some of the citizens are helping to make money scarce by having work done elsewhere.

Los Angeles can do as good work, in any department, as any other city, and

any department, as any other city, and very near as cheap—sometimes cheaper. Take book printing and jobbing. This city can do work as quickly, neatly and cheaply as San Francisco, and yet the citzens send their work to the Bay City to have done. Several books of late were printed there; and there is one now about to be printed with advertisements of our business men, and all saving of course that they can do one now about to be printed with advertisements of our business men, and all saying, of course, that they can do all kinds of work as cheaply and well as any other city. What a false-hood and mockery it will appear when that same book is printed in San Francisco! The matter of where a book is printed lies with those who patronize the work, and they should see that the book is printed in this city. Every dollar paid for wages here goes into the various stores; every dollar paid for work done elsewhere is so much out of the pockets of our home storekeepers. Suppose all the from work of the business houses lately put up, and now going up, was manufactured here: What a fiost of mechanics you would have employed in Los Angeles!—If you want your city to become a manufacturing, and prosperous place you must have home work done in the city. Suppose you do pay a triffe more (and all young cities must charge a little more than old-established places, as work shops, etc., have to be put up), you get it back twice over in the shape of a healthy business in the stores.

Citizens of Los Angeles, be men, and lovers of your wonderful and beautiful city, and have your work done here.

"To be a manufacturing city" ought to be the watchword of every citizen. What can a city amount to if you have to send away your money to other places for eatables, clothing and manufactured articles? Business men who advertise in a book about the glories of your city, see that your book is printed here, and diverse and sittle more and alway your money to other places for eatables, clothing and manufactured articles? Business men who advertise in a book about the glories of your city, see that your book is printed here.

Business men who advertise in a book about the glories of your city, see that your book is printed here; and citizens who put up houses, see to it that the material is made and manufactured in Los Angeles.

question of "American homes against

Declaration of Independence." THOSE varns about the Chinese merchants being willing to put up immense sums to the Republican campaign fund are only interesting as showing the estimate in which the intelligence of Democrats is held by Democratic

papers.

THE Buffalo paper which has just bolted Mr. Cleveland is the News, which has always claimed the credit of discovering him. The President's record as a public official must have been extremely disappointing to the residents

As compared with the vote of 1880. the vote in 1884 showed that in New England the vote cast for Cleveland was less by 1089 than the vote for Han cock. The Democrats of New England who believe in protection, will help reduce the vote still more in 1888.

THE coming campaign is to be a shoulder-to-shoulder campaign, as far as the Republicans are concerned. There will be no wavering in their ranks, and the red bandana will go down next November in the face of their victorious columns.

THAT able religious journal, the New York Independent, says of the Republican cause:

The Republican party is again on solid ground. It has returned to its old tradi-tions. It has given us a ticket which Chris-tian men and men of conviction can heartlly support. Those who left the party in 1884 can now return and vote for men as well as principles. There is no excuse for contin ued alienation. Let us close up our ranks and bave an old-fashioned Republican vic-tory in November.

THE Prohibitionists of Michigan have just had a very slimly-attended State convention, and their campaign does not open with any great degree of Most Michigan temperance people have perfect confidence in the Republican party, and do not propose to do anything to aid the free-rum Democracy to carry their State.

SENATOR SHERMAN'S manly and truthful remark on the Chicago nominations is worth remembering:

"I will do al! I can to secure the election of the Republican candidates. They have been fairly nominated, and are entitled to the support of every honorable man who participated in the convention and every Republican who is in favor of the principles set forth in the platform. The real issue is not persons, but principles—protection against cheating and lorgery."

THE issue before the people in the pending election is the simple question whether, in levying taxes for the support of the Government, we shall pay regard to the interests of American capital and American labor, or whether shall disregard those interests, and cut down duties right and left, without stopping to consider whether at the the people, beginning his busy life same time we cut down established in a country store. An Awful Disclosure.

Here is the latest blow, aimed by the Herald at the Republican ticket. It is too important a thing to be lost, so we reprint it here, where it will

so we reprint it here, where it will have a chance to be read:

Editors Herald: "Maj. John Harrison, an ancestor of Gen. Benjamin Harrison, was one of Oliver Cromwell's most trusted men 248 years ago," says the Tribune on the eve of our Glorious Fourth.

Doubtless Maj. John directed the massacre of the 1500 men, women and children in the town of Wexford, Iteland, as he was one of the plous Oliver's most trusted men. That the "Curse of Cromwell" may light on the man who has the most remote drop of Irish blood in his veins, that will vote for the pro-Chinese Hoosier, is the sincere prayer of an Irish mother whose ancestors were butchered by the copper-nosed fiend.

An Irish Mother.

Los Angeles, July 4, 1888.

It is possible that this awful disclosure may force Gen. Harrison to withdraw his name, but we are determined that the Democrats shall not exult over it. The publication of this venerable secret, which should have been respected on account of its age, justifies us in revealing to a horrified world a fact of a still more startling and liverdisorganizing character. Immediately after the St. Louis Convention, the Republican National Committee engaged by telegragh the services of a renowned antiquarian detective, to proceed at once to the south of Europe and investigate the "Old Roman's" an cestry, the expenses being guaranteed by the Secretary of the Republican Central Monopoly Corruption fund, acting in harmony with the Chinese Six Companies and Jay Gould. After several weeks dilligent search the learned antiquarian discovered a musty parchment in the library of a Trappist monastery at Bandania, in the north of Palestine, from which, taken in con-

#### A Dirty Business.

THE TIMES has frequently stated in very plain and unmistakable terms that there is a "nigger in the fence," in the uncalled-for multiplication of saloons in this city, which has been going on during the past few months. until respectable citizens have become alarmed and forced the authorities to call a temporary halt in the establishment of Democratic vote factories. These statements have, of course, been indignantly denied by the local Democratic organ, but they are true, all the same. We print this morning a little episode in which a prominent Democratic politician and a Democratic member of the Board of Education are mixed up in a very far from flattering manner. This peep behind the scenes shows very plainly to what lengths the local Democracy are prepared to go in order to win what they know is a losing fight. The slums are to be swept to fill the Democratic net this fall. Our able Democratic contemporary probably reply to this latest charge with the assertion that "never in the history of Los Angeles has the city been more free from burglars than at present.

#### An Honest Man.

That "honesty is the best policy" is an old truism, which men in the midst of overwhelming adversity have sometimes questioned, when it seemed that a little trickery or legal quibbling might be the means of saving them much disaster. But, nevertheless sooner or later, the saying has proved true, and the honest man has won the mead of his integrity. Most strikingly is this true in the career of Levi P. Morton, the Republican candidate for the Vice-Presidency. He is a man of disasters of 1857 found him a busy F. Swat

POINTS OF THE MORNING'S NEWS. New York merchant, and the financial storm of that year caught mhi the general wreck and ruin that was wrought, and he went down in the midst of general disaster. He settled with his creditors at 50 cents on the dollar-all that he was able to pay -and he was legally free from all fur-ther obligation. But this was not satisfactory to the sterling integrity of the man, and so, as soon as prosperity again smiled upon him, every dollar of his indebtedness, as well as the accumulated interest, was paid, and so he stands before the country today as a man of sterling and unimpeachable honesty, having the confidence of every business man with whom he has ever been asso-

ciated. Such a man is a fit representative of a great party, and will do much to strengthen the ticket throughout the country.

The Republican party are especially fortunate in that their candidates are men who have no past to be explained away, no record upon which rests any stain. They are worthy representatives of the great principles of loyalty and political integrity to which the Re publican party adheres, and they will prove to be the choice of the American

In this issue we print a communication from a mechanic, who makes some very pertinent remarks regarding the habit which our citizens of sending away for articles which may be had here, manufactured at home, at the same or a very small advance in price. No city can possibly be built up in this manner. If such a system were carried out to its utmost extent-if we all sent to San Francisco or New York for everything that could be had there at a small percentage less of cost-we might as well close up our leading business houses altogether. If the statement is true that a pamphlet advertising our resources is being printed outside, it should lead to the withdrawal of support on the part of our citizens from such a plain announcement to the world that we have not sufficient public spirit to support home industries.

#### A BEGINNING.

Eight Police Heads Chopped Off at One Cruel Blow. There was more or less excitement in

police circles yesterday when it began to be rumored around that the board had decided to ask for the resignations of a number of the officers. There has been more or less monastery at Bandania, in the north of Palestine, from which, taken in connection with a genealogical table preserved in the Vatican, he was enabled conclusively to prove that Mr. Thurman is descended in a direct line, through the step-sister of his maternal grandmother, from Herod, the brutal King of Judea, who, as it will be remembered, caused all the infants of a certain age in Bethlehem to be put to death. This awful fact was immediately telegraphed to the committee, and we get it from headquarters. After this we would ask: Can any father of a family, or any man who was once an infant himself—of whom there are many in our midst—vote the Democratic ticket, so appropriately represented by a ruddy rag, for it is stained with the blood of thousands of innocent children. May the curse of Herod light on the man that has ever been an infant that will vote for the Roman Vice-President!

Mr. —: Per order of the Board of Police Commissioners, I am requested to inform you that your resignation as a member of the Los Angeles. police force will be accepted. Respectfully,

T. J. CUDDY, Chief of Police. This, of course, solved the problem of the secret session. The Commissioners have put the official guiliotine to work, and eight heads have failen. Among the number there are several good men, who, it is probable, will be retained when all the fact are mode known. A beginning has at least been made, and it is more than likely that other changes will follow.

NOTICE TO THE CITIZENS.

The anniversary of American independence will be celebrated by the soldiers of the United States at this post on the 4th inst., in the following manner:

At sun-rise a federal salute will be fired, and the American standard displayed upon the new field work on the hill.

At 11 o'clock the troops will assemble within the fortification on the hill, and the Declaration of Independence read in the English and Spanish languages.

At 12 o'clock the new field work will be appropriately named and dedicated, and a national salute fired.

The civil officers of Government and

After formal opening proceedings, the reports of States were taken up, that of California being presented by E. T. Dooley of San Francisco. His report was a lengthy one, touching upon all charitable and corrective institutions in the Golden State.

Mr. Brooker of South Carolina said that before the war there was no such thing as a penitentiary known in his State. It was only after the emancipation of the slaves that such a step was found necessary. There was only one such place in the State, and it was located at Columbia. There were about 1000 convicts in it, and 950 of them were colored people. The principal work is on farms, but there are manufacturing institutions.

Ex-Gov. Lucius Fairchild of Wisconsin said he had not come with any prepared address, but simply to testify his thanks and appreciation of what the State Boards of Charity are doing for the people. He spoke of the charities of his State, and took pride in stating that Wisconsin had established a home where dependent soldiers could go, and not only dependent soldiers, but their wives as well. He always thought that a good wife, who stood by a soldier from 1861 to 1805, should not be separated from her husband in declining years. Adjourned until evening. ourned until evening.

#### A RACE WAR.

Brutal Battle Between Polish and Hungarian Miners. Pittsburgh, July 6.—[By the Associated Press.] The Chronicle-Telegraph's special Early this morning a terrible con occurred at Jessup, Lackawanna county, between parties of Polanders and Hun-garians. The riot was the result of bitter race feelings existing for some time, owing to some trouble at Dolph's mines, where they were employed. Andrew Kankowsky, leader of the Pollsh faction, was attacked by the Huns at his home, and was attacked by the Huns at his home, and fled from the back door to the saloon of Michael Pano, where the doors were at once barred to prevent the attacking party getting in. The latter were determined to secure their man, and forcing down the doors, dragged him out in the road, beating him with stones and clubs, and defying those who came to his help. They soon pounded him to death. The Huns then began celebrating their crime by a carousal. The leaders of the party, Michael Olannick, Andrew Cunisky and J. Harway were secured by deputies at noon and taken to Scranton Jall. There has never been an occurrence so brutal in this region.

Christian Endeavor. CHICAGO, July 6.—Before the regular session of the National Convention of the Society of Christian Endeavor was begun today a gigantic prayer meeting was held early this morning in which 4000 people participated. The session of the conven-tion was opened with devotional exercises. Rev. E. Blakeslee of Spencer, Mass., was called to the chair, and the first regular ex ercise of the day was an address by W. H. Childs of North Manchester, Ct., on "The Prayer Meeting; How May It Be Im-

reaser Meeting; How May It Be Improved?"
Rev. F. E. Clark, president of the society, then spoke on the subject of "Christian Endeavor in England."
S. F. Jacobs, chairman of the International Sunday-school Committee, spoke briefly on the subject of "Sunday-school Work." He was followed by the report of the treasurer of the united society. The report showed that the receipts have been \$18,890, and the expenditures \$16,855. The session adjourned after a song and recttation, "Christian Endeavor," and the benediction.

CHICAGO, July 6.—Before Judge Gresham left for the East, last evening, coun-sel for the Wagner Palace Car Com-pany and the Pullman Company were called before him and were notified that he and Judge Blodgett had decided to dissolve the injunction issued against the Wagner Company in the Pullman application for a preliminary injunction restraining the Wagner Company from using certain devices in connection with vestibule cars. No reasons were given by the judges, but the inference was that they, upon looking further into the case, had concluded that there was no valid ground for interfering with the Wagner Company. By this action all proceedings in the celebrated vestibule litigation are stoped until the matter can come up for trial in the regular way. In the meantime, the Wagner Company give bonds. solve the injunction issued against the

Music Teachers' Convention.

CHICAGO, July 6.—The announcement that this would be children's day at the Music Teachers' Convention attracted an immense crowd to Central Music Hall. At the afternoon session, Willard Burr of Boston read the report of the Committee on Terminology. An address on the question of a musical encyclopedia was given by Waldo T. Pratt. The report of the secretary and treasurer was read and a new constitution adopted. W. H. Dana of Ohlo was elected treasurer, after which the convention adjourned.

Chicago Fruit Sales

CHICAGO, July 6.—Two carloads of Cali-fornia fruit were sold this morning by auction. The market is yet suffering from an oversupply of Bartlett pears received during the past few days, though the bidding on pears today was a little stiffer. The price realized was rrom \$2 to \$2.25 per box. Other fruits were in excellent demand and brought very satisfactory prices — Early Crawford peaches, \$2.75; boxes of apricots, in poor condition, \$1.45; crates of apricots, \$2.75; Hale's early peaches, soft, \$1.50; German prunes, \$2.15 to \$3.25; purple Duane plums, \$1.75 to \$2.30.

Party Nomination.

SAN FRANCISCO, July 6.—[Special.].
"I am a Democrat, and always voted the Democratic ticket," said L. P. Drexier, president of the California Jute Mills Company, and vice-president of the Pioneer Woolen Mills this afternoon, "but this year I propose to vote for Harrison and Morton: Propose to vote for Harrison and Morton; not only that, but also to cast my ballot for the Republican Congressman and Republican State Legislators. Protection to American industries and labor is of the most vital importance, and I am for the party that promises them protection. The Mills Bill, which reflects the sentiment of the Administration, proposes to remove the tariff from jute, raw and manufactured, which is 20 and 40 per cent. respectively. Now, if that bill becomes a law, we will be compelled to shut down our mill at once, and every other manufactory of the kind in the United States will have to do the same. If the Democratic Administration wanted to reduce the price of jute goods to the con-sumer, why did not the Mills Bill place raw jute on the free list, and protect the laborers and manufacturers engaged in the business by maintaining the tariff on manufactured goods ?"

"Why will it become necessary for you to close down your mills?" was asked. "Simply because we cannot compete with the pauper labor of Calcutta, India, where jute-workers are paid from 10 to 18 cents per day and work 18 hours out of the 24. We now have about 400 employes in our mill. They represent at least 1000 people, who will have to look elsewhere for bread and butter if the Mills Bill passes. Our plant is worth \$400,000, and if we are forced to close down the mill machinery can be sold only for old iron. Pending the action of Congress, we decided to order no more material, although the jute ought to have been ordered before this.

"You can take, also, the case of the Pioneer Woolen Mills, of which I am vicepresident. We have \$1,000,000 invested in the plant, but have cut down our force onehalf, and if that Mills measure passes we will discharge the rest of the employes and shut down. Millions of dollars invested throughout the country will be a total loss, to say nothing of hundreds of thousands of being necessarily thrown out employment, depriving the children of the poor classes of education and leading them to ignorance and crime. Manufac-tures are in their infancy on this coast, but in the East, where they are counted by thousands the case is different. I don't thousands, the case is different. I do think there is a woolen mill in the States that is paying dividends, and as for our Pioneer mills, instead of returning a profit, they were run at a loss of \$80,000 last year. If we don't get a change of adminis-tration this time, we will have to close the concern up, and let it rot. It is all non-sense to compare the United States with England. She raises no raw material, but buys it all, and has to look to the entire world for a market. On the other hand, America raises all her raw material and has a market of her own. Protection has been the salvation of the country thus far, and is the secret of America's prosperity. The question before the American people today is not one of politics or men, but of The question before the American protection and prosperity, or free trade and

#### THE CORONET.

Her Arrival at San Diego-To Make

a Long Cruise.
SAN DIEGO, July 6.—[By the Associated ress.] The yacht Coronet arrived in the arbor this morning, 106 days from New York. She will remain here about two before resuming her pleasure trip around the world.

Capt. Crosby, who sailed her out, reports an exceedingly fine trip, encountering no heavy weather and making the run without loss of a spar or breaking a rope. For the past 36 hours the Coronet had been becalmed about 40 miles off to sea, the only time that the log failed to register progress on the trip. Dr. Hubbard was the Coronet's only passenger. A salute of three guns was fired on her arrival, with the dipping was fired on her arrival, with the dipping of colors on the Lurline, Aggie, Lapaloma and other yachts in port. Mr. Bush and a number of yatchtsmen went on board during the afternoon. The yacht will be overhauled here and prepared for the long cruise, and before long Mr. Bush and a party of friends will start on a 10-months' trip. The route will be via Honolulu, Yokohoma, Bambay, the Suez Canal and Mediterranean to New York, when the craft will have completed the circuit of the world.

K. T. Bush of New York, owner of the Coronet, and several friends immediately went aboard. The vessel is in excellent condition, and met with no mishap during the long voyage around. She left New York March 22d, and reached the equator in 17 days 4 hours, having sailed 4000 miles, and making from 280 to 300 miles, and making from the equator to 23° south she sailed with the southeast trades, but at 49° south struck contrary, baffling winds. On May 4th she struck a gale which lasted 24 hours, but did no damage. It afterwards increased to a hurricane, however, blowing from the northwest to west-southwest, and for 12 hours the yacht was in great danger. The captain, in order to break the sea, threw overboard five bags of fish oil, and allowed a can of kerosene to run over the decks.

The entrance to the Straits of Magelian was sighted May 8th, in dead winter weather, the mercury being down to 38° and 43°. She sighted Cape Horn May 9th, and came around on the 18th. She met frequent gales, and sailed against strong headwinds from the north nearly all the way through the Pacific. From June 1st to 12th she met baffling winds, and crossed the equator on the 18th. She only spoke one vessel on the entire voyage, and sailed 25,000 miles. Cape Horn, was sighted south of Coronado

Cutting Sailors' Wages.
SAN FRANCISCO, July 6.—The trouble about wages between the coasting seamen and the Ship-owners' Association took a more decided turn today. The Ship-owners' ould be made in wages of sailors running on their vessels. The sailors say they will hold out against the proposed reduction. Blake, who has charge of the association's affairs, says that the reduction is due to the few charters and low freight rates, and that it is the sense of the body which he represents to tie the vessels up rather than pay high wages at losing rate for freight. "If they refuse the terms, ships will be beached, that's all," he said.

DIED ON THE GALLOWS.

Execution of a Murderer at Dallas,

PORTLAND (Or.), July 6.—[By the Asso ciated Press.] William Landreth was hanged at Dallas today for the murder of hanged at Dallas today for the murder of his stepdaughter, Symmle, at Independence, January 29th. He was confined in the prison at Salem until this morning, when the Sheriff of Polk county arrived with a wagon to take him to Dallas. He had displayed little or no concern at his fate until just before reaching Dallas, when he wept profusely. At Dallas the Rev. T. T. Koyal remained about 15 minutes with the prisoner, praying carnestly for him.

At 10:30 the Sheriff began dressing the prisoner, praying earnestly for him.

At 10:30 the Sheriff began dressing the prisoner for execution, and offered him brandy, of which he drank considerable. In response to inquiries, he repeated his former assertions that he killed the girl because she ruined him in the estimation of his neighbors. He denied having had improper relations with her, but confessed that he was suspicious of her conduct with others. At 12:20 Landreth was led from his cell. He was so weak that he could hardly stand. Landreth painfully ascended the scaffold steps and took a chair on the trap, where he sat with pallid countenance, closed eyes and chattering teeth, his lips moving as if in prayer, and his fingers ner-vously clutching a white handkerchief, while the Sheriff read the death warrant.

Turning to the quivering murderer, Sheriff Smith asked him if he had anything to say, and he answered almost inaudibly, "No, nothing." At 12:27 Landreth was assisted to his feet. The chair was removed

"No, nothing." At 12:27 Landreth was assisted to his feet. The chair was removed and his hands firmly strapped from behind and his feet bound closely together. His face was turned up and the black cap drawn over his head. The noose was adjusted and drawn tight, with the knot under his right ewr. Landreth in the mentime was weakly swaying to and fro, and had to be supported by his executioner while the preparations were making.

Sheriff Smith then asked, "Are you ready?" and being answered by slience, gave the signal to Sheriff Croisan, who sprang the trap at 1 o'clock, and Landreth was swung into eternity. His neck was broken instantly. His pulse beat 85 at 4 minutes, 120 at 6 minutes, then 140, and thereafter was intermittent and ceased entirely. The body remained motionless during the whole time, there being no exterior evidence whatever that life was not extinct from the first. After having remained suspended 20 minutes the physicians pronounced animation gone.

The body was taken down and placed in a plain coffin. The crowd which had remained waiting patiently on the outside during the whole time, was now permitted to view the remains. Women and menerowded around the coffin and viewed the features, which wore a very placid and natural expression. The body was limediately removed to the cemetery for interment. Some of Landreth's relatives were present in Dallas at the time of the execution.

It is noteworthy that today is the anniversary of the lynching of Kelly, who killed his wife at McCoy. The scene of the lynching was but a few yards north of that of the execution.

On the assembling of the House of Commons today, Parnell 10se to make an explanation concerning certain statements in connection with the O'Donnell-Times trial. He said that the upshot of the trial prevented his testifying on oath, and, therefore, he would tender a statement to the House. He declared that he never saw the alleged letter from Egan of February 24, 1881, which was read at the trial with the view of stewing that the the trial with the view of showing that the league instigated the Phœnix Park murders. He was convinced that it was a for gery. The imputation against the O'Learys was false. In regard to his letter, dated simply Tuesday, and saying: "I see no objection to your giving the amount asked for. There is not the least likelihood of what you apprehend happening." Parnell said it might be genuine, but he could not recollect it. As to Mr. Egan's letter of October 25, 1881, to Carey, saying: "I sent M. £200. When you get to work give us the £200. When you get to work give us the value of our money," and which Attorney-General Webster stated the police found in Carey's house, Parnell said that doubtless genuine letters from Egan were found there, but Egan had never been legally charged, and he had sent a cablegram denying the authorship of the letters attributed to him. Parnell denounced as an absolute forgery the letter which, it was alleged, he wrote and which it was claimed was smuggled from Kilmainham Jali to Egan urging him to immediate action and to make it "hot for old Forster." to make it "hot for old Forster." He never wrote, signed, saw or authorized the communication.

Parnell then reiterated his assertion that he had neither signed nor authorized the letter dated May 15,4892, which bore what was alleged to be his signature and which was published a year ago. He said he hat not used a signature similar to the one attached to this letter since 1879. He had then adopted a different style of signature, "Oh" from the ministerial benches.] The letter of June 16, 1882, was also a forgery. The Byrne letter was doubtless genuine, but he had never sent Byrne any money. He had subscribed a small amount to the Byrne testimonial. "The great majority of the letters read at the trial," Parnell continued, "are palpable forgeries. If they are credited it makes it supposed that I deliberately put myself in the power of a murderer; that I was an accessory to the Phenix Park murders before and after the fact, and that I entered Kilmainham Jail desiring to assassinate Mr. Forster. The absurdity of the whole series of letters wifth a few exceptions, shows them to be forgeries."

Justin McCarthy, it was announced, would make a personal explanation to the House later in the day. The cost incorred by the Times in defending the suit brought by O'Donnell amounted to £12,000. It will try to make O'Donnell liable for the argents.

amount.

Justin McCarthy followed Parnell with an explanation of the statement that he had given Byrne a check for £100. He acknowledged that he gave the check to Byrne, but said that he never suspected Byrne to be anything but a hard-working servant of the societies devoted to winning home rule for Ireland.

OLD WORLD ECHOES.

The Count de Paris Issues a Manifesto Which Is Seized. PARIS, July 6.—[By Cable and Associated Press.] The police have seized at the house of M. Dufuell, a director of the Orleanist press, copies of a letter written by the Count de Paris to the Conservative Mayors of France, in which he says:

"You have to protect municipal liberties and finance against an extravagant and tyrannical administration, which is a will-ing tool of the party which compromises the Republic and which will cause its downfall. The day is near when we must all unite to reconstruct and establish the Government of France upon a durable basis. The ke-public has not given the communes the lib-erty it promised them. Three Young Men Murdered.
CHICAGO, July 6.—A Times special from Wichita, Kan., says: Reports of the murder on the Red Fork of the Arkansas River, in Indian Territory, of Ed Fraley, H. Holliday and J. Merwood of Springfield, Ill., are received. All were under 20 years of

age. A few days ago they missed some money, and accused a half-breed Indian named Evans of having stolen it. On the day following this Evans was found murdered in his cabin. The three boys had disappeared. Evans's friends, supposing the boys had murdered him, started in pursuit, and, coming upon them, murdered them in a shanty which they were occupying. No trace of the gang has been discovered,

Passenger Trains Collide. WILKESBARRE, July 6.—Two passenge WILKESDARRE, July 6.—Two passenger trains on the Pennsylvania road, traveling 30 miles an hour, collided at Butzbach Station this morning by the mistake of an operator. The engineers both saw the danger, and, after reversing their engines, jumped down the high embankment. Both engines went down the embankment into the Susquehanna. Kearney Fired. C. P. Kearney, assistant secretary of the Democratic County Central Committee, has been succeeded by A. C. Clarke for that position. Mr. Kearney is a young man of a wildly imaginative turn of mind, who went up to San Francisco a few days ago and regaled an Examiner reporter with a scurrilous alleged account of the organization of the Oro Fino Club of this city, the facts of the Oro Fino Club of this city, the facts of which had no foundation save in the cavity which would contain the brain of that versatile prevaricator, had not that portion of his anatomy been omitted in his makeup. Although the Oro Fino is a Republican organization, the account was of such a nature, and reflected on so many people, that the Democrats concluded to dispense with his services.

Buried Fifteen Years. |National City Record.] Capt. B. F. Fletcher of this city has a curious record that he prizes highly, which is worthy a place in anybody's museum. It is only an old clock with which is worthy a place in anybody's museum. It is only an old clock with an unpainted pine case, but it has a history. In 1864 the Star of the West mine, in Como, Lyon county, Nev., was closed, and the men who had worked there hastily rushed off to new fields, neglecting to take many things of value in their fight. In 1879, 15 years later, Mr. Fletcher opened the shaft and went down on a tour of discovery. In one corner of one of the levels he found aft old carpet-bag, in which were stored many articles, including the clock. The woodwork had crumbled to dust, but Mr. Fletcher carried the brass work, rusted with time, to bled to dust, but Mr. Fletcher carried the brass work, rusted with time, to the surface, where he made a new case, repaired the machinery, and oiled it and set it roing. It has been running ever since, and has never been touched by a clockmaker. The clock had laid under ground 15 years. It is needless to say it had run down.

GEN. HARRISON'S SOUND VIEWS

His Clear and Unmistakable Utter

JGen. Harrison at Des Mones, Sept. 21, 1883.1 In the South, Virg nia, Georgia, Ala-bama and Tennessee are already awakening to the benefits of diversified industries. No longer content to raise cotton for Massachusetts, they are spinning it in sig'it of the fields where it grew, and are successfully compet-ing with the East in the markets of the

West.
The vast beds of coal and iron in their mountains have been opened. Alabama a ready has her Birmingham, Alabama arready has her Birmingham, and boasts of her ability to make from cheaper than Pennsylvania. The industrial question threatens to dominate the race question, and that bodes no good to the Democratic party in the South. The Western States are no longer purely agricultural States, exchanging their surplus wheat for New England goods. When the Cobden Club makes its old appeal to the Western Benatz of Bernatz of Bernatz

IN BEHALF OF BRITISH GOODS. it does not speak as formerly to a section having but one great industry. The furnace, the rolling mill, the machine shop, the woolen and cotton mill have come west to grow up with the country. In 1850 Onio had on y \$29,000.000

market.

Let us not forget that the tariff ques-Let us not forget that the tariff ques-tion, as we have it in American poli-tics, is not in its ultimate statement a question as to what duty shall be levied on this or that article of import. The broader question must be settled first, whether we may and should, in fixing these duties, so adjust them as to

PROTECT AMERICAN INDUSTRIES. [Applause.] Whether we should do that of a deliberate purpose, or should leave these industries to the accidents or "incidents" of a tariff only designed

Mr. Voorhees is reported in the newspapers to have said that the tariff plank in the Indiana State platform of last year declared for a "revenue tariff. with incidental protection, designed to foster our industries." There is a vast deal of undesigned incidental nonsense in such a declaration. [Laughter and applause.] A leading Democratic paper aptly described this kind of thing. "as a tariff for revenue only

uental protection." It boldly says we will have no regard whatever to the necessities of any American industry or to the wages of the American laborer. Our sole object will be revenue—and if we can get more revenue. or to the wages of the American abover. Our sole object will be revenue—and if we can get more revenue out of a given article by making a rate that will close every American mill producing it and give our entire market to the British manufacturer, that shall be the rate. [Applause.] This doctrine takes no account of workmen and workwomen. If our mills are kept running these must accept the lower wages of European operatives.

these must accept the lower wages of European operatives.

I do not stop to furnish statistics of the comparative wages of labor here and in Europe. They are abundant and well authenticated. I want no other evidence that wages and all the other conditions of labor are better here than in Europe than this—the laboring men and women of Europe are coming this way, and they come to stay. Millions of earnings have gone back to the old countries to pay the passage money of friends hither—but the steer-age of the returning vessel is empty. The Irishmen, German and Scotchmen know a land that has no

LIGHT AND LIFE IN IT FOR A LA-

BORER,
as well as the birds know the land of summer. [Applause.] I do not say that labor has its full reward here. I do not deny that the avarice of the millowner too often clips the edge of comfort from the wages of his operative. I regret that the legislator has so little power to soften the rigors of avarice or to save the laborer from disastrous competition in the labor market. But in spite of all this I do affirm that there is more comfort and more hope for a laboring man in this country than in any other. [Applause.]

boring man in this country than in any other. [Applause.]
Will it help the laborer to bring our tariff duties to a "revenue only" basis? On which side is his interest? Every honest and intelligent advocate of free trade must admit that if we abandon our system of protective duties the wages of labor must be reduced. The trade unions frequently concede a reduction of wages when the product of their labor declines in price. Now, these tariff reformers tell us that the price of all competing American products is enhanced by the full amount of the duty laid on the foreign article. A reduction of duty then involves a corresponding reduction of the price of the product of our mills. The LABORER IN THE MILLS MUST ACCEPT

LABORER IN THE MILLS MUST ACCEPT
LESS WAGES.

But it is said that the reduction in wages which some of these gentlemen state at 25 per cent., is to be made up to the workmen by the cheaper rate at which he will obtain the necessaries of

EN. HARRISON'S SOUND VIEWS
ON THE TABLEF.

III Clear and Unmistakable Utterance at Des Moines in 1888 in Pavor of Protectiou—A Speech Worth Preserving.

BY HARRISON at Des Moines, Sept. 21, 1883. In the New York Prevente Course All the May Desire Wages.

LESS WORK AND LOWER WAGES.

LESS WORK AND LOWER WAGES. LESS WORK AND LOWER WAGES.

[Applause.] Let every workingman take that fact home with him. This is net only a question for the worker in mills, but on the farm and on the street. One of the most significant things said in the Senate during the debate on the Tariff Bill was this by Senator Morgan of Alabama:

"There is Birmingham, which is growing up in great prosperity; but

"There is Birmingham, which is growing up in great prosperity; but whether it is going to add a dollar to the wealth of Alabama is a problem. If Birmingham is to raise the price of farm labor all over the State 25 cents a day, or something like that, the farmers will have to give up cotton planting, and will have to stop, or else it will have to be planted entirely on the hills by the few white people who are scattered among them, or, if Birmingham or any other industry in Alabama is to draw the labor from the plantations, I do not see how we are to conduct our great agricultural enterprises, I shall begin to believe after awhile that it is more of a curse than a blessing to have these great between the second of the sec

shop, the woolen and cotton mill have come west to grow up with the country. In 1850 Onio had on y \$29,000,000 invested in manufacturing. In 1880 she had \$189,000,000. Then Indiana had less than \$8,000,000; in 1880 she had over \$65,000,000. Then Illinois had \$6,000,000; in 1880 she had over \$65,000,000. Then Illinois had \$6,000,000; in 1880 she had over \$140,000,000; in 1880 she had over \$140,000,000. Then Illinois had \$6,000,000; in 1880 she had \$1,200,000; in 1880 she had \$33,987,000.

The total value of the products of manufacture of these four States in 1850 was only \$101,000,000; for 1880 it was \$982,207,000. The power of Cobden Club tracts over the mind of a farmer diminishes in preportion to his nearness to a manufacturing center. [Applause.] For in that proportion he realizes the benefit of a home market.

One that not only takes the staple products of his farm, but its more perishaell products that cannot reach a distant market.

Let us not forget that the tariff quastical states and to the farmer who tills them. [Ap-

and to the farmer who tills them. [Applause.] Every prosperous city in Iowa sends out from it an influence that enplause.) Every prosperous city in lowa sends out from it an influence that enhances the value of the farm and the products of the farms. [Applause.] it brings to a circle of these farms a market which may be reached by a wagon, and delivers the farmer from the tribute of the common carrier. We need not have any fear that wages anywhere will be too high. [Laughter.] We have a common interest that a margin for comfort may be added to the uccessaffies of life. I am sure that none of us are so anxious for cheap goods that we would be willing to admit "the spoils of the poor" into our houses. It seems strange that we should find a party among us opposing the provinces of Great Britain are adopting it and finding increased prosperity.

FRANCE AND GERMANY FRANCE AND GERMANY

in such a declaration. [Laughter and applause.] A leading Democratic paper aptly described this kind of thing. "as a tariff for revenue only with a PROTECTION ATTACHMENT TO CATCH VOTES."

[Applause and laughter.] The tariff plank in the Obio plaiform to which I have already alluded, and which has been accepted in a good many other States as the correct "form," is only another example of a platform rick intended to conceal and not to declare the purposes of the party. As I have said, it did not reach Iowa in time, and you blundered into an honest expression of Democratic doctrine. "a tariff for revenue only." The Democrats of Iewa have courage. I think this virtue is 'the fruit of adversity. [Laughter.] They have never found it necessary to stop and consider whether this or that declaration, but that our legislation should discriminate in favor of our own country, her industries and laboring people ought not to be questioned. I shall not stop to tire you with statistics as to the effect of tariff duties upon the cost of our domestic products. The pretext that these are products. The pretext that these are products has been too often expression of Democratic doctrine. "a tariff for revenue only." The Democratic of Iewa have courage. I think this virtue is 'the fruit of adversity. [Laughter.] They have never found it necessary to stop and consider whether this or that article should not be on the free list. Republicans differ understoned the story of our own country, her industries and laboring people ought not to be questions, but that our legislation should discriminate in favor of our own country, her industries and laboring people ought not to be on the free list. Republicans differ understoned the story of our own country, her industries and laboring people ought not to be on the free list. Republicans differ understoned the story of our own country, her industries and laboring people ought not to be on the free list. Republicans differ understoned the story of our own country, her industries and laboring peo

want a tariff for revenue only. You would have Congress gradually but persistently reduce duties till every vestige of protection to our home industries is eliminated. You would GIVE OUR PERSECUTED INDUSTRIES NO REST.

The only concession you will make to them is that they shall be led down an easy incline to death. You will advise a slow poison. Your platform does not hold out any delusive hope of 'incidental protection.' It boldly says we will have no regard whatever to the products seem to be made on favorable terms. Certainly they are more favorable than they used to be. About a year ago I happened in one of our Indiana towns and had the pleasure of conversing with one of the old citizens who had been a clerk in a dry goods store in a very early day in the history of our State, when the surplus product of our lands all went to the New Orleans market by flat boat. He told me that he recalled well the time when the first Lowell print calicoes came to the store. Before that everything had been British or French. He recalled the price at which these things were sold. Calico was 37½ cents per yard, and chickens were 37½ cents per dozen. It took

EIGHT DOZEN CHICKENS TO BUY A

CALICO PRESS

[laughter and applause], and the pattern was scanter then than it is now. [Continued laughter.] If we look at the price list of steel rails or of other manufactures of iron or of tile, or fabrics of woolen, one shall find that we are able now to make exchanges of our farm products for these at more satisfactory rates than formerly. But, some one says. I can buy the same article of British manufacture cheaper abroad. Well, if that is true now, has the fact that our American mills have occupied so largely our home market nothing to do with it? [Applause.] Are you absolutely sure that the price would remain the same if these mills were closed? Are you sure it would not reach higher figures than the price of our domestic products now?

The manufacturers claim for THE PREMIUM that it has its details by the best mechanical talent in America, w it command, have combined only that which is practicable and surroundings generally found in other machines.

#### PREMIUM HIGH-ARM THE

Islight-running and noiseless, uses A STRAIGHT, SELF-SETTING NEEDLE, and make the double thread "Lock Stitch." It is the perfection of mechanism for bemming, telling; binding, cording, braiding, seaming, tucking, ruffling, gathering, embroidering, hemsition.

and will do a greater range of work than any other manine.

The woodwork is unique and attractive is style and substantially made from well seasoned and carefully selected material. Its elegant fluish and rich trimmings are in good taste, and harmonize with the excellent workmanship of the machine.

Far more handsome and ornamental than the ordinary style of woodwork, it is abthe same time of equal durability, utility and good fluish.

WARRANTEE—The usual flve-pear warrantee is given to us by the manufacturers, and we in turn guarantee every machine to give full and entire satisfaction.

NO RISK WHATEVER.

So great is our confidence and knowledge of the superiority of the PREMIUM HIGH-ARM that we further agree with every purchaser to REFUND THE MONEY in case full satisfaction is not given by the machine is every particular after a most is trial. Tailors, Dressmakers, Seamstresses, manufacturers of clothing, shirts, skirts, corsets, umbrellas, etc., will find one of its best recommendations is its special adaptation to their wants and range of work.

The Automatic Tension.

When once properly regulated, will rarely need to be changed, and as a general rule, the whole range of family sewing can be done without any change of tension whatever. The result is obtained by nicely adjusted springs, that will accommodate themselves to the size of thread used.

### OUR CLAIMS FOR SUPERIORITY

ARE AS FOLLOWS:

A Device Whereby the bobbin can be wound without running the machine saves the unnecessary wear of the machine and the trouble of unthreading and removed and stradburgers while the hobbin is being filled. A Scale for Regulating The length of stitch, which enables the operator to readily ascertain the length of stitch without testing

A Spring-Tension Cylinder Shuttle, Holding a bobbin that carries a but one hole to thread through, making it the most cashy threaded shuttle in use. The tension may be changed without removing the shuttle from the machine.

The Double Feed of werk than any other. It has great parents of anittis in use. The Double Feed of werk than any other. It has great power and never fails to perform its duty—will feed the lightest and heaviest goods with equal precision, and will receive seems and hard places without changing lentgh of stitoh or missing stitches.

Inght Running. On account of the simple mechanical devices employed in its conchine, and its almost noiseless. It is the simple in the greater speed than any other machine, and its almost noiseless. It is the simpliest EASIEST OPERATED, best made and most olegantly ornamented machine in the world, combining every requisite to produce perfect work.

Inviting a practical test of this machine, we distinctly claim for it a great superiority in plan, material, workmanship, and in its performance. It is unquestionably the most popular achine now in the market.

Sterling exchange, dull and steady at
4.87 for 60-day bills, 4.88% for demand. New York, July 6.—There were good buying orders in the stock market this morning, and commission houses again appeared as purchasers, which gave specula-tion a much more legitimate appearance than it has possessed for some time. At the same time Chicago sent buying orders in Grangers, and an interview with Armour, in which he expressed very decidedly bull-ish views in St. Paul, gave that stock the lead. Grangers took first place in dealings, and Rock Island became conspicuous for its strength, followed by Northwestern and the Gould stocks came next in promince. Shorts ran to cover and swelled the volume of business, though the advance made was out of all proportion to the trans-actions recorded. Oregon stocks and North-ern Pacific preferred were the features. The announcement that a syndicate had sold the rest of the third mortgage bonds in Europe created a great demand for the last-mentioned stock. The coalers were not far behind the leaders, and Lackawanna was especially prominent, particularly in the afternoon, advancing rapidly, while Read-ing was comparatively quiet. The close was quiet but strong at near the best prices of the day.

Government bonds, dull but steady. Mining shares, dull.

What Am I To Do.

The symptoms of biliousness are unhappily but too well known. They differ in different individuals to some extent. A bilious man is seldom a breakfast enter. Too frequently, alas, he has an excellent appetite for liquids, but none for solids of a morning. His tongue will hardly bear inspection at any time; if it is not white and furred, it is rough, at all events. The digestive system is wholly out of order and diarrhea or constipation may be a symptom or the two may alternate. There are office hemorreoids or even loss of blood. There may be glddiness and often headache and acidity or flatulence and tenderness in the pit of the stonach. To correct all this it not effect a cure try Green's August Flower, it costs but a trifle and thousands attest its efficacy.

Rev. Dr. Nourse is to deliver three lec-tures at the Frst Congregational Church on Monday, Tuesday and Wednesday next.

Political clubs are being organized on all ides, and the time is near at hand when orchlight processions will take possession

Department No. 3 of the Superior Court will respense Monday next, and remain in session until the 16th, when it will close for the summer vacation, until September Sd. The divorce case of Cate vs. Cate was called in Department No. 4 yesterday, and resulted in a decree as prayed for being granted to the plaintiff, in default of the defendant.

Cefendant.

The latest news received from Judge Chency is to the effect that he has improved very much in beaith by his vacation trip, and will, in all probability, reoccupy his seat on the bench in Department No. 1 of the Superior Court on the 16th inst.

J. S. Murset, a native of Switzerland; Gottfried Alexander, a native of Germany; Jules Fellandy, a native of France; and James Lestora, a native of Italy, appeared before Judge Hutton yesterday and made application to be admitted citizens of the United States.

A suit was yesterday entered in the Sp.

United States.

A suit was yesterday entered in the Superior Court by J. O. Campbell against W. N. Monroe, to recover on a promissory note given on the 20th of February, 1888, for \$1400. The note was given for cash loaned, and bears interest at the rate of 10 per cent. per annum, should the interest not be paid.

E. G. Barclay, who made the balloon ascension with Van Tassell and his wife, on the Fourth, managed the big gas bag himself, under the direction of Van Tassell, of course. This is Mr. Barclay's second ascent, and he is coming to enjoy as ill through space immensely. There was no intention of denying Mr. Barclay's participation in the adventure in yesterday's item.

A celestial lover appeared in the County Clerk's flice in the person of Wong Lung, who intimated that he had wooed and won the affections of an almond-eyed hour, whom he wished to call his very own, and, in order to do so, be wanted a license to "maily, aliee same 'Melican man."—He gave his age as having attained 31 years, while his bride, by name Ton Lon, pleads guilty to 21 years, an old gentleman 64 years of age, a resident of Alh mbra, yesterday fited his petition for letters of administration in the estate of his deceased wife. Charlotte A. Thurber, who died on the 29th of June, and had been a resident of this city fer some little time previous to that date. The applicant and Eugene Carleton Thurber, aged 22, also a resident of Alhambra, are the only heirs to the estate of the deceased, who died intestate.

Ho Chung, the Grand Muster of the high-

deceased, who died intestate.

Ho Chung, the Grand Master of the high-binder branch of the Chinese Freemasons, arrested some nights ago to prevent an outbreak in Chinateown, growing out of his attempt to organize a ledge in this city, came before Justice Austin and was committed to the County Jail to await trial on a charge of energing in a riot. Chung will be well taken care of by his fedlow heathens during his confinement. They say that they are determined to have a lodge here and will keep on trying until they succeed.

A serious ranaway occurred on Spring street yesterday afternoon between 3 and 4 o'clock. A horse attached to a buckboard became frightened, and ran away, which started another h ras attached to a buggy. The horse attached to the buckboard dashed against the relatedess window in News. The horse attached to the buckboard deshed against the plateglass window in Newman's store, in the Turnverein building, smashing the glass, while the buggy was almost reduced to kindling wood. No one was injured so far as could be learned, nor could the name of the owner of the vehicle be ascertained.

CONSUMPTION.

From consumers, "to waste away," usually applied to the advanced stage of lung disease. The following are prominent symptoms in the first stage, and whenever any of them exist a thorough examination should be made, with a view to arresting the disease as shown to exist: There is usually a sense of wear many passive and idle despondence of the first of cold, and a breathlessness upon moving quickly, or descending a hill or stairf, a slight, backing cough, with or without expectoration, excitability upon slight occasions, flying rains through the chest or back, or under the shoulder blades. The symptoms are more noticeable toward or during the night, slight fever in the afternoon, oid feet or hands or in it any cases, blue lividity of the lips and roots of the finger-nails.

Constitutional or tubercular consumption is a common form of liting disease. The progress is slow, but if left to itself is no less sure. It usually begins with a dry cough. At first these tubercoles are exceedingly minute the patient not at all suspecting their presence. Gradually they develop into more active disease, and then follows the train of symptoms which leaves no doubt as to the first of symptoms which leaves no doubt as to train of symptoms which leaves no doubt as the first of the hands of the form of consumption leave the stomach and appetite undisturbed for a considerable time. Finally, however, hectic fever and night sweats supervone, preceded by diarrhose. Then the loss of strength and flesh becomes rapid, the chest contracts, the features sharpen, the eye attains an unusual brilliancy, and the strengths at them to give to realize that he is in the last stage of confirmed constitutional consumption.

Persons determing treatment by this system of practice can use the remedies at home as

that he is stitutional consumption.

Persons desiring treatment by this system of practice can use the remedies at home as well as at our office, and which will cause no inconvenience or hindrance to business what-

Fig. 1. There seen so many of these cases cured that I do not consider any case hopeless until both lungs are seriously involved. Even then the inhalations aid us in dissolving the mucus and in contracting and healing the cavities which nothing else can do with the same success.
